ALBERTO HERNÁNDEZ

PYTHON DEVELOPER

EXPERIENCE

Lyft Back-End Engineering Job Simulation - March 2024

- Completed the Back-End Engineering job simulation, taking over development of an unfinished project for the Lyft Rentals team.
- Drafted a UML class diagram representing a new reorganized architecture.
- Refactored a messy codebase inherited from another team to accurately reflect my new design.
- Implemented unit tests and added new functionality using test-driven development.

EDUCATION

IUTA - January 2017 - June 2019
Bachelor in Occupational Health and Safety

- Develop and implement programs to ensure a safe work environment and company compliance with environmental, health, and safety (EHS) regulations.
- Conduct inspections, investigate incidents, and oversee corrective actions to prevent accidents and environmental hazards.
